

# BioBolusSe

**Application:** A dietetic mineral feed bolus for the reduction of the risk of nutritional imbalances in grazing and forage fed cattle. The bolus dissolve from a constant surface area thus providing a continuous and regular supply of trace elements to the animal.

*BioBolusSe can be used in organic production according to regulation (EF) no. 834/2007 and (EF) no. 889/2008.*

**Physical form:** 160 gram grey bolus

Active content:	Per bolus:	Daily supply from 1 bolus in 180 days:
Selenium	220 mg	1.2 mg
Cobalt	485 mg	2.7 mg
Iodine	4,140 mg	23 mg
Zinc	131,220 mg	729 mg

**Undesirable substances:** Comply with EU Directive 2002/32/EC and later amendments

**Instructions for use:** 1 bolus per cow (active life: 180 days)  
Can be used for dairy cows and for beef suckler cows and growing young stock on grass weighing more than 300 kg

**Packaging:** 10 bolus per case

**Storage:** Dry and cool in original packaging  
Keep out of the reach of children

**Shelf life:** 2 years from date of production

**Produced for:** R2 Agro A/S  
Establishment no. α-208-G756042
